

MEDICAL TERMINOLOGY

THE EYE MATCHING EXERCISES KEY

ANATOMICAL TERMS

<p>1. orbit 2. retina 3. cornea 4. nasolacrimal 5. macula lutea 6. pupil 7. trabecular 8. fovea centralis 9. conjunctiva 10. choroid</p>	<p>g. eye socket f. part of fundus that receives light and transmits to optic nerve c. transparent outer part of eyeball covering iris i. related to duct for tears from lacrimal sac to nose h. yellowish central region of retina j. central opening in iris b. related to meshlike structure that filters aqueous humor d. pinpoint pit in center of macula e. mucous membrane between eyelids and eyeball a. semi-circular vascular layer between sclera and retina</p>
<p>a. optic nerve b. palpebra c. iris d. vitreous e. sclera f. optic disc g. tunic h. lens i. ciliary body j. lacrimal duct</p>	<p>3. carries sight impulses from retina to brain 4. eyelid 5. colored part of eye behind cornea 2. glassy, jelly-like mass filling inner chamber 1. tough, fibrous white of eye 8. area in retina where optic nerve is formed 9. outer fibrous layer 10. lies directly behind pupil 7. ring of muscle behind iris that controls lens 6. carries tears to their sac</p>

SYMPTOMATIC AND DIAGNOSTIC TERMS

<p>1. exophthalmos 2. asthenopia 3. ophthalmodynia 4. ophthalmencephalon 5. blepharospasm 6. astigmatism 7. chalazion 8. hordeolum</p>	<p>d. abnormal protrusion of eyeball g. eyestrain h. pain in the eye a. vision apparatus from retina to visual centers of brain b. involuntary contractions of eye muscles, causing blinking c. distorted vision thru lack of single ray focus on retina e. small hard mass on eyelid resulting from blocked duct f. sty (infection of sebaceous gland)</p>
<p>a. entropion</p>	<p>5. inward turning of eyelid</p>

MEDICAL TERMINOLOGY

<ul style="list-style-type: none"> b. keratitis c. strabismus -exotropia d. trichiasis e. macular degeneration f. dacryocystitis g. strabismus - esotropia h. ectropion i. hyperopia j. pterygium 	<ul style="list-style-type: none"> 1. inflammation of cornea 8. eye misalignment - away from the nose 6. eyelashes rubbing on cornea 7. breakdown of tissues in central retina 4. dacryocystitis 3. inward turning of eyeball 2. turning outward of eyelid 10. farsightedness 9. fibrous growth of conjunctival tissue on cornea
